 **allied**
TUBE & CONDUIT

A Standout in the Field

With a bright red topcoat, **FIRE ALARM™ EMT** provides instant identification of fire alarm circuitry. This innovative conduit eliminates the need to spray paint or powder coat in the field. And Fire Alarm™ EMT provides all the benefits of Allied's traditional E-Z Pull® EMT:

- Hot-galvanized for durability and long life
- Quick and easy installation
- Damage-resistant strength combined with ductility for easy bending
- E-Z Pull® interior finish provides a smooth raceway for wire-pulling
- Excellent EMI shielding characteristics
- Full code and standard compliance; UL listed and labeled

Fire Alarm EMT with E-Z Pull® coating is available in trade sizes 1/2", 3/4", 1", and 2".

For more information contact your local electrical distributor or **Allied Tube & Conduit** at (800) 882-5543 or visit our website at www.alliedtube.com/fireemt.htm

EMT with red exterior coating is a trademark of Allied Tube & Conduit Corporation, Harvey IL. U.S. Patent Pending

¹Outside diameter tolerances: +/- .005 in. (.13mm) for trade sizes 1/2" (16mm) through 2" (53mm)

²Wall thickness tolerances: + .020 in. (.51mm) and -.000

NOTE: Length = 10 ft. (3.05m) with a tolerance of ± .25 in. (6.35mm).

* 1 1/4", 1 1/2", 2 1/2" - 4" EMT and 1/2" - 4" IMC available on request

U.S. Patent Pending

Other Electrical Products from Allied Tube & Conduit:

Allied manufactures EMT, IMC, and Rigid steel conduit, as well as Kwik-Fit™ and Kwik-Couple® with integrated fittings and couplings. In addition to our steel conduit line, we also offer aluminum conduit, elbows and couplings, and PVC conduit and fittings.

Allied also offers Power-Strut® metal framing systems and the Aickinstrut™ fiberglass reinforced strut system, as well as Cope® metallic cable tray and Cope-Glas™ fiberglass tray. Allied's newest cable tray product is the Cat-Tray™ welded wire mesh cable tray system...*a flexible and adaptable solution for cable management.*
