For outdoor applications requiring a 30-year service life, stainless steel was the only viable solution...until now! Power-Strut® has developed a new high-performance coating called Power-Strut® Defender™!

- Protects outdoor applications for up to 30-years
- 3X the service life of hot-dip galvanized1
- Offers SIGNIFICANT savings over stainless steel

Power-Strut Defender®

Typical application design life is sourced from a number of different publications and is not true for all applications. Reference your project-specific requirements and environment for a true performance estimate.

Why invest in stainless steel when you have a high performance alternative? **Power-Strut® Defender™**
